

Hello Riverside class,

I hope you are all well and finding lots of things to do. You know what we say in Riverside - Reading is the most important thing you learn to do in primary school so please

READ READ READ!

I am sure that you all know the grammar rules that Bradley from super movers sings about. How many nouns / adjectives / verbs or adverbs can you find? Now can you put them into a sentence? Please write down some super sentences to share when we are all back together again. Do you know your number bonds? Keep practising!

Can you find somewhere to go for a Riverside run? You may need to step off the lines if someone is coming!

CHALLENGE TIME

A The answer is... what is the question? How many questions can you find using + - x or ÷ ?

1. 12 Examples: $5 + 7$ or $7 + 5$ $13 - 1$ 6×2 $12 \div 1$

2. 18

3. You choose a number!

B Can you play a different game every day for a week? (With other people or by yourself)

We're both well and George is fine too, he's waiting patiently to prop open our classroom door again.

Have a good week and learn something new every day. Ms Middleton is getting much better at Spanish and **may** be able to say welcome back in Spanish by the time we are all together again! (That's my challenge!)

Best wishes,

Ms Middleton and Mrs Lewis
